Laporan berhasil install ssh

The screenshot shows a Windows desktop environment with a VirtualBox window titled "ubuntu20.04 [Running] - Oracle VM VirtualBox". Inside the VirtualBox window, a terminal session is running on the Ubuntu 20.04 host. The terminal displays the output of the command "sudo systemctl status ssh". The log shows the SSH service starting and accepting multiple password connections from port 127.0.0.1. The desktop taskbar at the bottom includes icons for Asap, a weather widget (34°C), a search bar, and various application icons.
